Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative discussed possible declarations by the inventors and/or amendments to the claims to further prosecution. Applicant's representative further discussed an amendment to clarify the language in the independent claims by removing the "capable of" language regarding the function of the host and dopant materials set forth in the claims. The examiner stated that an amendment to clarify the claim language regarding the aggregate states of the materials of the claimed device could potentially distinguish the claims over the Aziz et al. reference. Applicant's representative indicated a claim amendment would be submitted to the examiner.
